

Your Safety at HCH2022

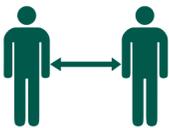

The NHCHC is moving forward with plans to meet in person for HCH2022 and we're working with the Hyatt Regency Bellevue to make our conference as safe as possible. The hotel is taking measures to ensure your safety, such as touch-free options, more frequent sanitization with hospital-grade disinfectants, and testing the use of electrostatic sprayers. Their new social distancing measures include revised capacity guidelines, contactless meal options, the use of masks, protective shields at the front desk and more. The World of Hyatt app can put you in control of contact options—from check-in to dining and more.

Cleanliness

- Sanitizer stations prominently placed throughout the hotel
- Frequent cleaning of public spaces and guestroom surfaces
- GBAC STARTM accreditation, inclusive of detailed cleanliness training
- Hygiene & Wellbeing Leader to help ensure new protocols are being met
- Enhanced food safety and hygiene protocols
- Wellness and temperature checks, according to local guidance
- Removal of certain high-touch items from guestrooms

Social Distancing

- Social distancing signage
- Personal protection equipment, worn in accordance with local guidance
- Spacing measures and capacity guidelines
- Elevator spacing and revised maximum capacity guidelines—elevators, fitness centers and more
- Reconfiguration of meeting room set-ups
- Knock-and-go room service

King County Mandates

As of November 2021, Bellevue/King County WA requires either proof of vaccination or a negative COVID test 72 hours prior to attending our event.

- If you are not vaccinated, we will provide attendees a list of Bellevue locations where they can take an FDA-approved PCR test and receive the required digital or printed documentation.

Your safety is our first priority. As policies and precautionary guidelines adapt, we will continue to do everything we can to make our meeting as safe as possible.

We look forward to seeing you in 2022!
