ORGANIZATIONAL DESCRIPTION
The National Health Care for the Homeless Council (the Council) is the premier national organization working at the nexus of homelessness and health care. Since 1986, we have brought together thousands of health care professionals, medical respite care providers, people with lived experience of homelessness, and advocates. Our Organizational Members include Health Care for the Homeless health centers, medical respite care programs, and housing and social service organizations across the country. Additional information is available at www.nhchc.org.

Grounded in human rights and social justice, the Council’s mission is to build an equitable, high-quality health care system through training, research, and advocacy in the movement to end homelessness. As an organization, we believe an inclusive and open environment fosters creativity, contributes to the quality of our work, and provides growth opportunities for our employees. The Council is guided by the principles of Justice, Equity, Diversity, and Inclusion (JEDI) in its internal and external work of dismantling racism and identity-based oppression as part of meaningful efforts to end homelessness and become a trauma-informed, anti-racist agency.

JOB SUMMARY
The Senior Medical Respite Manager will work with the Director of Medical Respite on California based projects of the National Institute for Medical Respite Care (NIMRC) and the Respite Care Providers’ Network (RCPN). The job responsibilities of the Senior Medical Respite Manager will involve completing projects scoping the areas of technical assistance, education, training, and research, as well as leading the development of products in response to emerging Technical Assistance (TA) needs from the medical respite field. Completion of these tasks will involve regular communication with the RCPN/NIMRC community to gather information and resources needed to execute this work well. The Senior Medical Respite Manager works in concert with all teams of the Council. Duties may vary depending on team assignment, therefore a certain degree of flexibility and latitude is required.
