
Physician Position Description

Title: Physician

Reports to: Chief Medical Officer

Summary: The physician (MD) provides clinical services to patients.

Responsibilities:

- Provide family medicine services in the Cincinnati Health Network's Health Care for the Homeless (HCH) Program.
- Participate in teaching and precepting residents in various clinical settings of the program.
- Work as part of a Medical/Administrative Team and clinically supervise medical, nursing and ancillary providers.
- Participate in the Quality Improvement and Patient Centered Medical Home efforts by following clinical policies and procedures, utilizing standing orders, and meaningfully using the EMR, and practicing within the medical home concept of care.
- Create and maintain effective working relationships with support staff, faculty physicians, providers, patients, board members and the general public.
- Maintain active privileges in the HCH Program and local hospitals.

Qualifications:

- Board certified and licensed to practice in the State of Ohio, family practice preferred.
- A commitment to the Health Care for the Homeless service delivery model.
- Working knowledge of Quality Improvement concepts.
- Supportive of the concept of primary care and behavioral health integration.
- Experience working with underserved populations.
- Ability to communicate effectively and relate to persons of all cultural backgrounds.
- Ability to work effectively with teams and with a diverse array of professionals and agencies.
- Maintains the required continuing education for professional licensure.
- Cultural sensitivity and willingness to work with homeless persons and persons with HIV.
- Commitment to the mission of the Cincinnati Health Network.
