

Worksheet: Planning for Successful Health-Housing Partnerships

The questions in this activity are intended to help you brainstorm the individual steps necessary to implement a new partnership.

Please choose one or two potential partners that you'd like to prioritize. Then respond to the following prompts to identify how a successful partnership with this organization(s) could begin.

Your Name

Your Organization

Which community partner(s) did you choose for this activity? Organization Name

Why did you choose this partner(s)? What is your current relationship with this organization?

What service(s) or role(s) will this potential partner provide?

Supporting Partnership Implementation

Answer the following questions to identify what supports you need to pursue this partnership.

What resources are needed from your team or organization to implement this type of partnership?

Staff time? Expenses? Technology resources for communication and coordination?

Do you have buy-in from staff and leadership to pursue this partnership? If not, how can you make sure others are on board?

Details of Implementation

Answer the following questions to lay out the plan for implementing this partnership.

What are the steps necessary to establishing this new partnership?

Planning meetings? Communication plan? Create a list and drill down as many details as possible.

What type of agreement or contract will you need for this partnership?

Memorandum of Understanding? Scope of partnership?

What is your expected timeline for the steps you mentioned above?

Monitoring Partnership Progress

Answer the following to brainstorm how you might track progress and identify long-term goals for this partnership.

How will you know when you've successfully implemented this partnership?

What information and data can you use to determine if this partnership is helpful?

What are the long-term goals for this partnership? How can it be sustained?
